" ages 5 to 14 years 752
Total 1133

Continued

Diphtheria Immunisation

Children under 4 years of age	31
" ages 5 to 14 years	18
Total	49

Housing

The Housing question is acute and I am glad that the Council arranged the purchase of land for 250 dwelling houses. Plans of the layout and for three types of houses have been approved by the Minister of Health.

Sanitary

Generally conditions are good.

Water

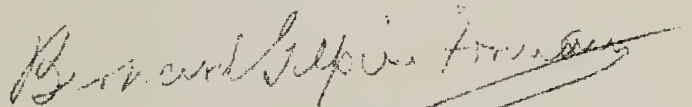

Both the Spring and Borehole supplies are Bacteriologically good and are first class waters. The Borehole supply is still awaiting a Treatment Plant to remove the Iron and Manganese, and in this connection the Council are proceeding as quickly as they can.

Dwelling Houses without water supply.

Two farms and two dwelling houses are not connected to the Council water supply.

I am, Gentlemen,

Your obedient Servant,

M.B.E., M.D., Ch.B., J.P.

Medical Officer of Health.
